

Journal Entry, April 25th 1937

Poison arrow wound again! Why do I keep missing the signs?? I'm going to have to bookmark this page for future reference as a gazetteer of occupational hazards for adventurous archaeologists...

Figure 1 - Do not trip on these!

Figure 2 - Keep out of the light. If it's dark inside, keep it dark!

Figure 3 - Take extreme care when retrieving artefacts

Figure 4 - This is good

Figure 5 - This is bad!!

Figure 6 - Biological hazards are commonplace

Figure 7 - Like today, sometimes these things fly at you from nowhere!

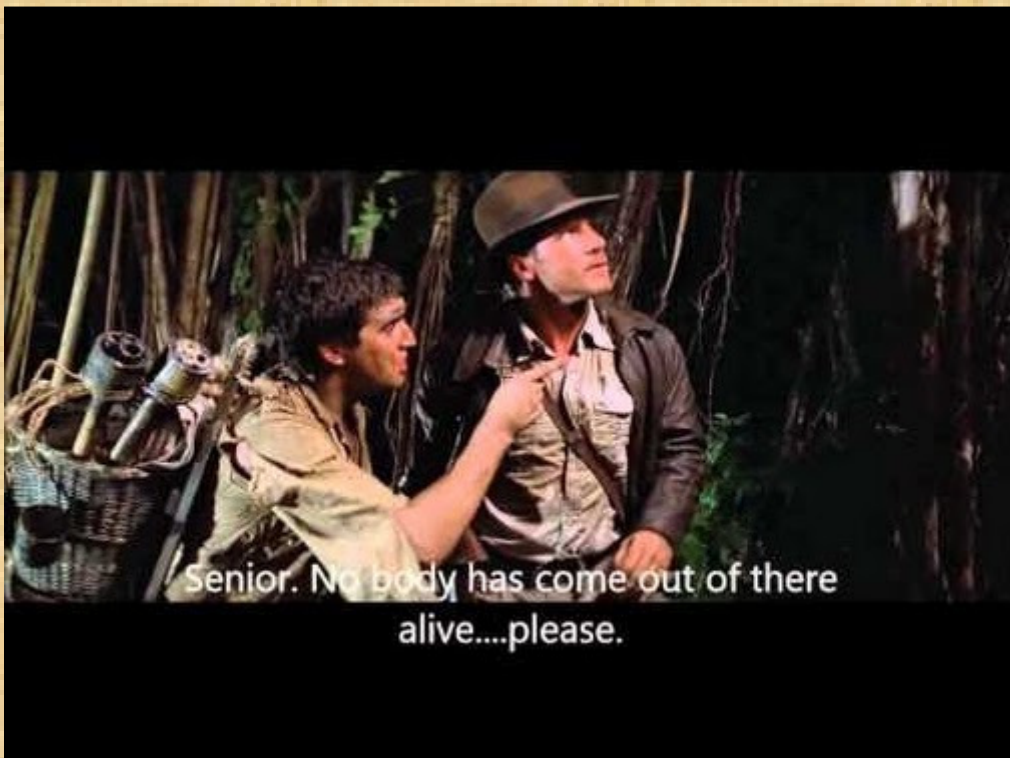

Figure 8 - Listen to those around you and take their advice!!!
